Whole House Remodel

A complete remodel of this 8,000 sq ft home included renovations to two kitchens, a large pantry/laundry, and 5 bedrooms/7 bathrooms. An exercise room and full bath/steam room were added in the finished basement. Rustic French Oak trim and historic barn beams were preserved. Stucco walls and ceilings were made smooth. New lighting, paint, fixtures, flooring, refinished hardwoods and appliances were included. Outside, landscaping was refreshed, gas lamps were added, trim was painted, and limestone applications were made to two terraces and sets of steps.
