**1760 Arlington Avenue Columbus 43212**

## **Kitchen Renovation**

This early 1900's Upper Arlington house was in desperate need of a facelift for the homeowners' young family. By flipping the Kitchen and Dining Room and reconfiguring the first floor, the space became more natural and functional. The dangerous brick steps were replaced with wood steps to create a safe environment for the young children and provide peace of mind for the parents for years to come.
